VOLUME 8

ISSUE ONE

Eighth Anniversary Edition

The Owners and Staff at Collier Seawall & Dock would like to thank our loyal customers once again, for allowing us to serve you last year and are looking forward to another season of servicing all of your seawall and dock needs in the 2012 season. We are also very excited to make some new friends and customers through positive referrals and a limited amount of new advertising.

Our . . . New Home

Over a year ago, we moved into our new office location inside the Sun Trust Building. Customers and staff alike have found it to be a huge boost to our visibility in the community. We are settled in and feeling right at home. Please feel free to stop by with any questions or about any projects you may have in mind.

Our . . . New Look on the Web

With much anticipation, we have received the final version of our new web site and have gone live, to help give new & existing customers another point of contact, coupled with more information and helpful links.

This new site may be found, via any search engine with some relative word or phrase searches or by going directly to the site -- www.collierseawallanddock.com. We have posted a host of new project pictures as well as current comments from you and your neighbors about the quality work that we have completed. If you would like to see your project or comment on our site, just go to the 'contact us' page and let us know. We will select random customers to highlight each month.
